

Marker Recycling

Do you have markers that are worn out?

Would you like to help the environment and repurpose the markers instead of throwing them away?

You can help by bringing your worn out markers (regular, dry erase and even highlighters) to the Art Room and placing them in the Crayola ColorCycle container. This wonderful program offers an opportunity to:

1. Rid your home of all the used up markers hiding in junk drawers and old backpacks.
2. Teach students about the opportunity to repurpose everyday items.
3. Encourage families to consider ways we can explore other eco-friendly practices.

Thank you Mrs. Smith for helping New Britton continue on our path to be an

Eco-Cool School!
